जुलाई 18th July, 2023

Dear Shri C D Nagarajan,

As you are aware, India's Lunar Lander 'Chandrayaan-3' has been successfully launched aboard LVM3-M4 on 14th July, 2023. On this historic occasion, it gives us immense pleasure to acknowledge the flawless performance of 'Linear Rubber Bellows' from MYPOL used in the mission, which are critical elements of an intricate explosive based severance system employed in the vehicle for separating the spacecraft heat shields.

Linear Rubber Bellows from MYPOL have been an unswerving part of ISRO's launch vehicles since 2014. We recognize and appreciate your expertise & efforts for its initial development as well as for maintaining timely supplies with impeccable quality standards for all these years.

We take this opportunity to heartily congratulate you for your significant contributions in the Indian Space Program and wish to continue our valuable association with MYPOL in many more challenging ventures upfront.

Wishing you the very best.

(विनोद कुमार एन/ Vinod Kumar N)
